Phone/ fax numbers :

**I would be interested to hear more concerning the deliberative conference:
“The Good Musculoskeletal Doctor”.**

My interest in medical input to musculoskeletal services is because :

I work in this area as a doctor/ physiotherapist/ specialist nurse practitioner/ clinical psychologist/
osteopath/chiropractor/other role; [please say what] : . . .

If as a doctor, are you a GPSI, or specialist in – rheumatology/ S&EM/ rehabilitation/ orthopaedics/
pain; other role:

I train professionals for these roles, [please say which]:

OR my work is influenced by medical input in this area
as a commissioner/patient/other :

I **would/ would not** welcome taking part in a pre-conference email forum teasing out issues or
accepting suggestions for focus in the conference debates; adding the maximum value to the
deliberation outcomes going forward into the emerging clinical networks.

Any other remarks including observations or proposals to a multidisciplinary forum such as this? . . .

Thank you.
